

We are seeking a PhD Graduate Research Assistant to begin Spring 2023 to assist with an NSF-sponsored interdisciplinary project that aims to promote the adoption of Open Science practices by STEM graduate students and faculty. The student will be expected to assist the team with:

- Data preparation and analysis
- Manuscript preparation
- Team meetings and meeting organization
- Project website and communications
- Open Science workshops

We encourage all students to apply. However, the ideal candidate would have

- Prior interest/activity in Open Science activities
- Knowledge of R/Python programming
- Prior experience teaching/running workshops
- Published articles
- Experience working as part of an interdisciplinary team

Interested students should submit their **resume** and a **cover letter** via email to Dr. Kyle Johnsen at kjohnsen@uga.edu . Applications received by December 1, 2022 will be given full consideration.
